

How to add the EU DIGITAL COVID certificate into ISKAM app

1. Log into the ISKAM web app.
2. V menu *Accommodation*, choose the link *COVID-CONFIRMATION OF NO INFECTIVITY*

3. Here, you see the list of your already added certifications and you may choose the possibility to add a new certification by clicking the *New commit* button

4. By clicking on the *Upload certificate* button, you upload a file with a certificate. You may upload files in PDF, JPG or PNG.

5. a. The best situation is when you have an EU Digital Covid Certificate with a valid QR code.

The system of the ISKAM app detects automatically this QR code; it validates it and gets all relevant data from it. If is everything correct, you are good to go.

- b. However, if your documents does not have an EU QR code, you still may upload it. Nevertheless, it need to go thru the manual validation by the university administrative workers. Therefore, it is necessary to state some additional data with the uploaded certification:

JINÝ TYP POTVRZENÍ

V nahraném dokumentu nebyl nalezen QR kód.
Vámi vložený dokument nešlo automaticky zpracovat. Aby bylo možné jej nahrát do systému, vyplňte, prosím, následující údaje. Obsluha následně zadane údaje zkontroluje a teprve po této kontrole bude považováno potvrzení za platné.

Datum testu nebo očkování:*

Typ:*
