If you would like to learn about:

- the humanitarian response architecture

- basic humanitarian programming aspects
- practice-based approaches of humanitarians working with others, including development, political, peace-keeping and other relevant actors

Join us and learn from the Global Protection Cluster (GPC) Coordinator, Simon Russell!

During the 5-day seminar, Simon Russell will introduce you to the key concepts of the humanitarian principles, responses and challenges for protection in humanitarian operations. GPC is a network of UN agencies, NGOs and international organisations working on protection for internally displaced persons and other populations affected by conflict and natural disaster. The Office of the United Nations High Commissioner for Refugees (UNHCR) is the Lead Agency in the Protection Cluster. The work of GPC centres around two key objectives: *Protection is central to humanitarian action; and Protection response is timely, of high quality and relevant.*
